BEHIH Maroua Yasmine

First-year Computer Science Master's student · Artificial intelligence

PROFILE

First-year Computer Science Master's student at the University of Angers, I am interested in artificial intelligence from both a theoretical and an applied angle: machine learning, deep learning, image and signal processing. Passionate about solving complex problems, modelling and optimisation, I combine mathematical rigour and logic to explore AI approaches with a strong scientific dimension.

EDUCATION

Master's degree, Year 1 – Computer Science 2026 – present
University of Angers

Bachelor's degree in Computer Science (Years 2–3) 2024 – 2026
University of Angers

- Average 16.97/20 (Year 2) and 16.93/20 (Year 3); ranked 2nd in the cohort both years.

Preparatory cycle for engineering studies 2022 – 2024
USTHB, Algiers

- Ranked 1st in the cohort in the first year.

PROJECTS

Image classification with convolutional neural networks 2026
Academic project · Python / PyTorch

- Data preprocessing, training and evaluation of a deep learning model for image class detection.
- Critical analysis of classification errors to understand and improve model behaviour.

Constraint modelling and solving 2026, ongoing
M1 group project · PyCSP3, MiniZinc, SAT

- Several models of the Cyclic Bandwidth Problem (graph labelling), then analysis and comparison of the models (variables, constraints, symmetries) on the Harwell-Boeing benchmark.

Image synthesis and C/C++ programming 2024 – 2026
Academic modules

- 3D scene rendering (geometric transformations, lighting, textures) and interactive 2D games in C/C++.

EXPERIENCE

L3 (Bachelor's) internship Apr – May 2026
LERIA research laboratory, Univ. of Angers

- Built a JavaScript web application generating team pools under real-world constraints, with tabular and map visualisation.
- Designed metrics and statistics to quantitatively assess the quality of the generated results.

External relations department member 2023 – 2024
Micro Club, Algiers

- Organised scientific events and hackathons; liaised with external partners.

Email
maroua.behih@etud.univ-angers.fr

Location
Angers / Île-de-France

LinkedIn profile
in/marouayasmine-behih

Availability
From April 2027

SKILLS

AI & machine learning
PyTorch, TensorFlow, scikit-learn, CNNs, image processing

Optimisation & constraints
PyCSP3, MiniZinc, SAT

Programming
Python, C/C++, Java, JavaScript

Environment
Linux, PyCharm, IntelliJ, Qt

Data & web
PostgreSQL, MySQL, Oracle, HTML, CSS, PHP, APIs

Other languages
R, OCaml, Prolog

LANGUAGES

French
Fluent

English
B2 — TOEIC 885/990
